	ULT Stealth SLV Stealth BRZ Stealth RSC R							
Road AXS eTap AXS eTap 11 Speed 12 Speed	RED Force Rival Apex S-900 Aero							
	HydroR							
HydroR 10 Speed & 11 Speed Mech.	HydroR							

NOTES

- ⚠ WARNING- CRASH HAZARD**
DOT and Mineral Oil components are not compatible.
- Some levers or calipers require a banjo to be fixed on one end of the hydraulic line. Consult the [SRAM Spare Parts Catalog](#) to make sure you have the proper hydraulic hose line.
- Identify the caliper mounting type, fork and frame standard, rotor size, and proper mounting hardware before proceeding with installation. Consult the [MTB and Road Disc Brake Caliper Specifications](#) on www.sram.com/service.
- HydroR refers to mechanical shifting HRD brake systems such as S-700, RED 22, Force 22, etc.

LEGEND

Compatible; performs as designed.

Compatible; performance may vary.

⚠ WARNING- CRASH HAZARD

Not compatible; do not use this combination.

MTB AND ROAD HYDRAULIC DISC BRAKE LEVER AND CALIPER COMPATIBILITY

Use the chart to determine compatible hydraulic disc brake lever and caliper combinations.
