NOTES

- Some levers or calipers require a banjo to be fixed on one end of the hydraulic line. Consult the SRAM Spare Parts Catalog to make sure you have the proper hydraulic hose line.
- Identify the caliper mounting type, fork and frame standard, rotor size, and proper mounting hardware before proceeding with installation. Consult the [MTB and Road Disc Brake Caliper Specifications](http://www.sram.com/service) on www.sram.com/service.
- HydroR refers to mechanical shifting HRD brake systems such as S-700, RED 22, Force 22, etc.

LEGEND

Compatible; performs as designed.

Compatible; performance may vary.

WARNING- CRASH HAZARD

Not compatible; do not use this combination.

HINWEISE

- Bestimmte Bremshebel oder Bremsstammeln erfordern die Anbringung einer Leitungsaufnahme an einem Ende der Hydraulikleitung. Sehen Sie im SRAM-Ersatzteilkatalog nach, um sicherzustellen, dass Sie über die richtige Hydraulikleitung verfügen.
- Bestimmen Sie den Bremsstammelnbefestigungstyp, den Gabel- und Rahmenstandard, die Bremsstammelngröße und die richtigen Befestigungsteile, bevor Sie mit der Installation fortfahren. Lesen Sie in den [Montagehinweisen für MTB- und Rennrad-Scheibenbremsstammeln](#) auf www.sram.com/service nach.
- HydroR bezieht sich auf mechanisch betätigte HRD-Bremsysteme wie S-700, RED 22, Force 22 usw.

LEGENDE

Kompatibel; Leistung wie vorgesehen.

Kompatibel; Leistung kann abweichen.

WARNUNG – UNFALLGEFAHR

Nicht kompatibel, diese Kombination nicht verwenden.

NOTAS

- Algunas manetas o pinzas de freno requieren fijar un perno de banjo en un extremo de la línea hidráulica. Consulte el catálogo de piezas de repuesto de SRAM para asegurarse de contar con la línea de manguito hidráulico adecuada.
- Identifique el tipo de montaje de la pinza de freno, el estándar de la horquilla y el cuadro, el tamaño del rotor y la tornillería de montaje adecuada antes de proceder a la instalación. Consulte [Especificaciones de la pinza de freno de disco de MTB y carretera](http://www.sram.com/service) en www.sram.com/service.
- HydroR se refiere a los sistemas de freno HRD de cambio mecánico, como S-700, RED 22, Force 22, etc.

LEYENDA

Compatible; funciona según lo previsto.

Compatible; los resultados pueden variar.

⚠ ADVERTENCIA - RIESGO DE ACCIDENTE

No es compatible; no utilice esta combinación.

FREIN À DISQUE HYDRAULIQUE VTT ET ROUTE COMPATIBILITÉ ENTRE LEVIER ET ÉTRIER

REMARQUES

- Certains leviers ou étriers nécessitent un raccord banjo à fixer sur l'une des extrémités de la durite hydraulique. Pour savoir si vous disposez de la durite hydraulique qui convient, consultez le Catalogue des pièces détachées SRAM.
- Avant de commencer l'installation, vérifiez le type de fixation de l'étrier, la référence de la fourche et du cadre et la taille du disque de frein et assurez-vous de disposer des éléments de fixation appropriés. Consultez les [Caractéristiques des étriers de frein à disque pour VTT et route](http://www.sram.com/service) sur le site www.sram.com/service.
- HydroR désigne les systèmes frein HRD-dérailleur mécanique tels que les modèles S-700, RED 22, Force 22, etc.
