# How to use this Spare Parts Catalog

SRAM spare parts, service kits, and upgrade compatibility are defined by the product's MODEL CODE. To find the appropriate parts, follow the instructions below.

## 1. Find your serial number.

For assistance in locating the serial number, please refer to the [Component Serial Number Locator document](#).

## 2. Find your model code.

Determine your model code, download the appropriate service manual, and more, by entering the serial number into the [SRAM Service Site](#).

## 3. Decode your model code.

These Model Codes are used to link information to specific products and can be used to search for manuals and documentation or review spare parts in this SRAM Spare Parts Catalog.

Model Code example: DB-LVL-ULT-B1

DB = Product Type: Disc Brake

LVL = Platform/Series: Level

ULT = Model: Ultimate

B1 = Version: B - second generation, 1 - first iteration

## 4. Now, find the right page using that information.

-Click your model.

128 LEVEL ULTIMATE A1  
129 LEVEL ULTIMATE B1  
130-131 LEVEL STEALTH C1

-Scroll to the page with your specific generation.

LEVEL ULTIMATE - HYDRAULIC DISC BRAKE - LEVERS B1 (2020)  
DB-LVL-ULT-B1

-Then check the description to confirm the compatibility of the part you need.

### Notes:

ns = not shown

Year designation denotes model year, not manufacture date

Determining manufacture date from serial number:

25T1XXXXXXX -

'25' is the week of the year in which the product was made

'T' is an abbreviation for factory location

'1' is the last digit of the year in which it was made (2021 in this case)

Refer to the [www.sram.com/service](http://www.sram.com/service) for service instructions.

## NOTES:

1. See lever pages for exploded view of Hydraulic Line kits
2. SRAM Mineral Oil Bleed Kit w/ green Bleeding Edge Tool needed to bleed Maven brakes
3. Silver and Ultimate Calipers use a Silver Banjo hose kit, Bronze and Base calipers use a Double Compression hose kit.
4. SRAM DOT Assembly Grease is also compatible with SRAM Mineral Oil brakes.
5. Standard 20P adapters will NOT work with Maven Calipers. 20P-1 or 20P-2 adapters are required.
6. SRAM Maven brakes were designed for use with Maxima Mineral Oil only. Any other fluid may cause irreversible damage to the seals.
7. Maven Ultimate/Silver/Bronze B1 calipers changed from 19.5/18mm pistons that ULT/SLV/BRZ used to all 18mm pistons, like Maven Base A1.

## Rotor/ Mount Charts

### Disc Mounting Configuration

Use the charts below and on the following page to identify the parts you intend to use, then reference the charts on the reverse side to determine the bracket and/or spacer configuration to mount your disc brake caliper to your frame/fork. Consult your retailer for the proper rotor sizes for your bicycle.

**⚠WARNING - CRASH HAZARD**

Choose the correct bolt length for proper thread engagement. Riding a bike with improper bolt engagement can allow the brakes to disengage from the bicycle, which can lead to a crash and serious injury or death to the rider.

Charts are color coded according to configurations:

Road/ Mountain Configurations
Mountain Only Configurations
Road Only Configurations

### Rotor Size

Determine your desired rotor size to ensure it is compatible with your fork and frame.

Mount	Fork	Frame		Rotor Size
IS	160 IS	140 IS		140 mm
Flat	Flat	Flat		160 mm
Post	140 Post	140 Post		170 mm
	160 Post	160 Post		180 mm
	200 Post	180 Post		185 mm
	203 Post			200 mm
				203 mm

Identify your frame or fork's mounting standard and your preferred rotor size, then use the chart to determine the appropriate mounting configuration.

Fork / Frame	Rotor Size							
	140 mm	160 mm	170 mm	180 mm	185 mm	200 mm	203 mm	220 mm*
140 Post	Direct	20 S 20 P	30 P	40 P	-	---		
160 Post	-	Direct	10 S	20 S 20 P	25 S	40 P	--	
180 Post	---			Direct	-	20 S 20 P		40 P
200 Post	----					Direct	3 S	20 S 20 P
203 Post	----					-	Direct	17 P**

\* The 220 mm diameter rotor is designed for use with a 4-piston caliper.

\*\* The 17P Post Bracket must be used with a 203 Post Fork or Frame that meets the SRAM Disc Brake Post Mount Specification in the SRAM MTB Frame Fit Specifications on [www.sram.com/service](http://www.sram.com/service).

See "[Disc Brake Caliper Mounting Specifications for Road and MTB](#)" for installation or bracket details.
